

TRENTON METRO AREA LOCAL

PARKING UPDATE

Steve Duckworth, President

March 25, 2021

On March 2nd, 2021 Management unilaterally designated 23 parking spots as supervisor only parking. The APWU filed a grievance for Management taking actions that affected the members work conditions prior to negotiating with the Union. These concerns were also brought up by both the APWU and the NPMHU at the latest Safety Meeting. The APWU and NPMHU also brought their concerns directly to Plant Manager Dave Lang. After investigating the situation the Plant Manager agreed to restore the parking to the way it was as on March 24th, 2021. I want to thank George Gohr for his efforts in this matter.
