

Plant Consolidation Update

The USPS notified the APWU that they have made their decision on the PO 408 Study for the Trenton P&DC. The information below is what was shared with the local:

Trenton, NJ

- Destinating operations will continue to be processed at the Trenton P&DC
- No changes are expected to Retail or Delivery Operations
- Originating operations will be processed at the Philadelphia P&DC

The Postal Service anticipates that there will be some impacts to staffing because of Originating operations moving to the Philadelphia P&DC. We anticipate this to impact the following career positions at the Trenton P&DC:

- 6 Mail Processing Clerk
- 36 Mail Handler
- 14 Maintenance
- 7 Management

The Trenton P&DC Plant Manager discussed the update with both Unions. He stated the number of possible impacted employees could still fluctuate. There is no timetable for this impact. We were told that the Plant Manager will address the employees as a group (on each tour) with the Unions. The date and times for the group meetings is still to be determined based on it being peak season. When additional information is given to me, I will pass it on to the members.
